The Clear Perspective
on Healthcare Cyber Risk

CLEARWATER

HEALTHCARE CYBER RISK MANAGEMENT

Cyber attacks are on the rise in healthcare.

41M
Patient records breached in 2019*

More than
all of 2016, 2017 and 2018 combined

90%
of OCR ePHI cases related to risk analysis failures†

As healthcare organizations increase their reliance on digital technology, new opportunities and threats are emerging.

Trends like data proliferation, endpoint expansion, data sharing, and interoperability require significant resources and expertise.

As the value of stolen data increases, cybercriminals are increasing the number and sophistication of cyber attacks.

Budgets and resources to solve these problems are not keeping pace with new complexities and compliance requirements.

Checklists and spreadsheets cannot ensure the security, confidentiality, integrity, and availability of protected health information.

Healthcare organizations need a complete Enterprise Cyber Risk Management Solution that is scalable to their ever-changing needs.

†OCR Statistics: Clearwater's internal analysis of the OCR enforcement actions (settlements/CMPs) involving an ePHI breach event

- **Protect patient data**
- **Avoid preventable breaches**
- **Guard your reputation**
- **Achieve compliance**

IRM|Analysis CyberIntelligence® Dashboard

Your organization needs an advanced approach to Cyber Risk Management.

IRM|Pro®

Clearwater is the leading provider of Cyber Risk Management and HIPAA compliance software and services for healthcare organizations.

SaaS-based Enterprise Cyber Risk Management Software

Guidance and education from cybersecurity experts

100% OCR acceptance rate*

Trusted by more than 400 healthcare providers and partners, Clearwater offers best-in-class software and consulting services.

Our proprietary IRM|Pro® software helps you identify, prioritize, and manage all risks to help reduce the likelihood of a breach.

IRM|Pro is a holistic, scalable SaaS-based Enterprise Cyber Risk Management platform, based on the NIST Cybersecurity Framework.

IRM|Pro enables our consultants and the healthcare organizations that subscribe to the software to streamline information security and privacy processes, and to perform a comprehensive, enterprise-wide OCR-Quality Risk Analysis®. Contrary to a point-in-time checklist-based assessment/audit, IRM|Pro specifically facilitates a continuous risk management process that adapts to changing environments and threat landscapes and empowers our customers to maintain a strong, ongoing and maturing security posture.

*Risk Analyses performed by, or in consultation with, Clearwater have been accepted by the Office for Civil Rights 100% of the time

The difference is clear.

"Based on all I've seen over the years, Clearwater's risk analysis methodology and software are in the best-of-breed tier and can be seriously considered by any organization striving to meet regulatory requirements in performing HIPAA risk analysis."

Leon Rodriguez

Former Director,
HHS Office for Civil Rights
Partner, Seyfarth Shaw LP

"Clearwater's IRM|Pro® was the only user-accessible software I found that operationalized the NIST Framework through automation and made it manageable to apply across our assets."

Mitch Thomas
